

It's the Lean Mean Process Machine... Redux

It's the Lean Mean Process Machine...Redux.

A three-day event with over 20 closed mold and advanced process demos in a massive enclosed staging area. Building real-world parts, from aerospace nose cones and mini nacelles, to marine dashboards and the coolest long boards you'll see anywhere! Watch a Light RTM work cell in action, see time-lapse video showing a 3D-printed mold go from concept to reality in hours, and talk to closed mold and advanced process experts. Leave with new ideas and insights, and maybe even a tricked-out skateboard if you win this year's raffle.

Experience it LIVE at Booth #S94 during CAMX 2015 in Dallas, October 27-29.

Presented LIVE by Composites One, the Closed Mold Alliance and our industry partners
