People | Product | Process | Performance

With the best People, the broadest and deepest line of Products and unparalleled value-added Process and supply chain solutions, you can expect the complete package of Performance from an industry leader.

People, Product, Process, Performance. That's the Power of Partnership.

People, Product, Process, Performance. These four words differentiate Composites One and illustrate how a **Partnership** with Composites One is positioned to help our Customers grow their business.

People - It starts with **People**. Composites One has over 140 Technical Sales Representatives and Customer Service Representatives, eight Technical Support Managers and a dedicated Advanced Composites Team positioned to support you! As your partner, we'll provide you with exceptional customer service, personalized technical support and unmatched supply chain solutions to help you find creative and unique avenues to grow your business.

Product - Composites One has all the quality **Products** you need to make your aerospace composite parts! With the broadest and deepest **Product** offering in the Composites industry, Composites One is a one-stop solution for general purpose, specialty and high-performance raw materials and ancillary items. Many of these products are available for immediate shipping with short lead-times, including prepregs, reinforcements, resins, adhesives and manufacturing support items such as consumables.

Process - In a **Partnership** with Composites One, you'll have access to an array of customer-facing solutions focused on **Process** enhancement. With value-added support like extensive technical resources, our proprietary online b2bcomposites.com customer portal, customized supply chain solutions and access to regulatory compliance assistance, Composites One partners with our Customers to streamline processes and reduce total costs.

Performance - Highly effective and efficient supply chain and manufacturing support **Performance** for our customers is our priority. Composites One has strategically located 35 locally staffed North American distribution centers to place product close to you. Among these 35 distribution centers are several locations with prepreg freezer storage. Combine that with over 100 trucks and trailers on the road every day driving over four million miles per year to deliver product to our Customers on-time, Composites One makes sure our Customers have what they need - when they need it!

That's the power of Partnership. The Power of One - *Composites One.*
