

HAVE YOU LOGGED ON LATELY?

www.b2bcomposites.com • www.b2bcomposites.ca

A website designed with business needs in mind! With b2bcomposites.com or b2bcomposites.ca for Canadian customers, you have access to product information, order status, purchase summaries, and more – All from your computer, 24 hours a day, 7 days a week!

Ordering made easy!

Checking the status of your orders doesn't get any easier than this! Using the Order Center feature, you can check on orders placed both online and over the phone, track your last ten shipments, and place new orders for shipments listed.

Go green!

There is now a paperless option for receiving material safety data sheets (MSDS or SDS). These important documents can be sent straight to any email address! Other documents, such as invoices and notifications and Certificates Of Analysis (COA), are also available via email.

Need a quote?

Try our Quote Request feature in the Product Center. Simply enter the desired product in the search box, and the Quote Request option will become available. Once submitted, a copy of the quote request will be sent, and a customer service representative will contact you soon after!

b2bcomposites.com offers Composites One customers quick solutions for their everyday needs. Looking for MSDS or SDS information? Would you like to track a current order or review previous ones? Access this information and more with the website that was designed for you! Fast. Secure. User-Friendly. Available 24/7.

INFORMATION AT YOUR FINGERTIPS!

The Product Center on b2bcomposites.com enables users to search for items and save search settings for subsequent use. It also gives access to product availability, material safety data sheets (MSDS or SDS), and other product information to help with purchase decisions. One page, one website, one solution.... it's what we at Composites One like to call the Power of One.

Key b2bcomposites.com Features

Order Entry

Placing an order is easy on b2bcomposites.com. Reorder products shipped to any of your business' locations over the past 90, 180, or 360 days. You can also create a list of your favorite items that will appear on your Order Entry page each time you log in.

Order Repeat

Review past shipments or invoices using Order Repeat. You can also use it to verify your business order history and reorder products.

Credit Status

Here you can check an up-to-date statement of your business credit limit, available credit, open invoices, payments, and past due balances. Use this feature to stay on top of your business credit.

Purchase Summary

Access this customizable database of all your purchases. Find out what quantity you ordered and how much you paid. Retrieve MSDS or SDS information and trace invoices for items purchased including item lot numbers plus links to certificates of analysis numbers in each month of purchases.

Specials

We all enjoy a good bargain and when you visit our Specials page, that's exactly what you get. Available only to b2bcomposites.com users, the Specials page includes products that are offered at exceptional prices until they run out.

Regulatory Manual Online

Composites One reviews the EPA, DOT, and OSHA regulations and identifies common standards for our industry. The Regulatory Manual is available online to help you determine what regulatory compliance programs are necessary at your facility and it provides you with forms and checklists to help you meet your regulatory requirements.

Product Center Features:

Search Text

Enter words describing the item you are seeking

Group By

Leave as "None" to display items alphabetically or select to group by "Product" or "Vendor". This feature allows you to narrow your search results.

Contact Us by E-mail

Allows you to e-mail your request to a CSR.

Special Icons

This icon is displayed for all items offered at a special price.

Item Display

Click on the highlighted item number to display product details.

Availability

Text appearing in the rightmost column indicates availability of products.

Price

Displays selling price per unit of measure for items already quoted and offers a Request Quote option for new items.
