

BASF Product Offerings: Elastopor Rigid Foams

Helping Make
Products Better™

BASF
The Chemical Company

■ BASF Rigid Foams

- Superior Thermal Performance
- Closed-cell foam creates air barrier
- Low water absorption
- Good yield
- Adds strength to other materials

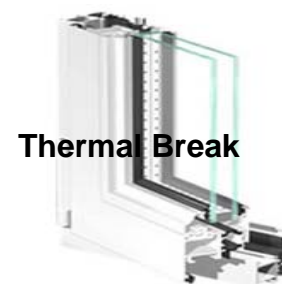

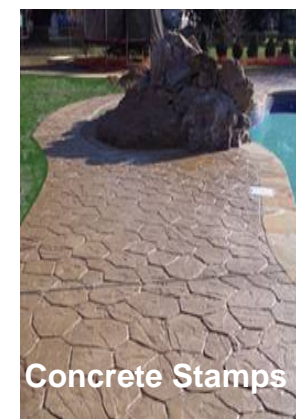

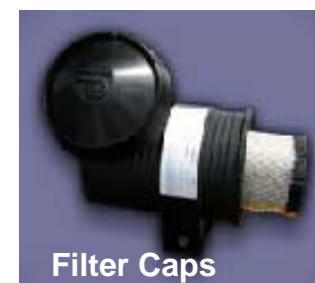

BASF Product Offerings: Elastocast® Elastomers

Helping Make
Products Better™

BASF
The Chemical Company

■ Elastomers

- Varying elasticity and hardness
- Tear, tensile and elongation
- Durable
- Add strength to other materials
- Create a thermal barrier
- Waterproof
- Abrasion, corrosion, and impact resistance
- Available as 100% solids (no solvents)

BASF Product Offerings: Elastocoat® Protective Coatings

■ Current Markets for Spray Polyurethane/Polyurea Technology

- Aftermarket Truck Bedliner
- Cardboard Tube Liner
- Primary Containment
- Noise Dampening

BASF Product Offerings: Elastoflex® Flexible Foams

Helping Make
Products Better™

BASF
The Chemical Company

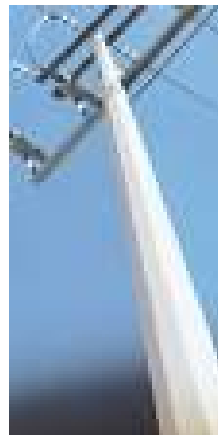

- Low VOC foams available
- Strong with good compression set performance
- Versatile; foam properties easily adjusted
- Viscoelastic (memory foam)

BASF Product Offerings: Composite Materials

Helping Make
Products Better™

BASF
The Chemical Company

BASF Product Offerings: Composite Materials

Helping Make
Products Better™

 **BASF**
The Chemical Company

■ PU Advantages

- Higher strength
- Better impact resistance
- Reduced weight
- Improved surface
- No VOC's
