GET THE KNOWLEDGE

you need to power your business and empower your team with Composites One and the Closed Mold Alliance during CAMX 2020, September 21-24. Join us for a VIRTUAL EXPERIENCE showing demos of vacuum infusion, light resin transfer molding and other advanced processes producing real-life parts, step by step. Watch us build, damage and repair key parts for aerospace, marine, infrastructure and other industries. See production cells in action. Learn about next-gen tooling and other innovations. And gain practical knowledge and new insights that you can use now to help drive new business growth.

Because knowledge is power. Only from Composites One.
